

# Single Platform Municipal Revenue Collection and Automated Access Control

TownHall247 Provides a Centralized Point of Sale, LPR Access Control, Online Payment, Mobile Sales, and Self-Service Kiosks.

## Does your:

- Municipality still hand out permits in person, one at a time?
- Staff feel overworked when the “gates open” for permit annually?
- Staff suffer from multiple vendors and reconciliation headaches?
- Staff have to visually inspect thousands of vehicles per day to ensure they are permitted?
- Municipality need to know who is coming and going from school parking lots?
- Risky cash collection need to be replaced with credit cards?

Since 2000, Bonsai Logic has been modernizing and streamlining revenue collection and access control for municipalities. We pride ourselves on performing highly qualified in-house and online sales, with minimal refunds and the easiest reconciliation in the industry. Our fully integrated License Plate Recognition systems, parking kiosks, and mobile sale platform provide the ultimate in citizen convenience. We reduce your effort and increase your efficiency.

**Bonsai Logic is here to help.**

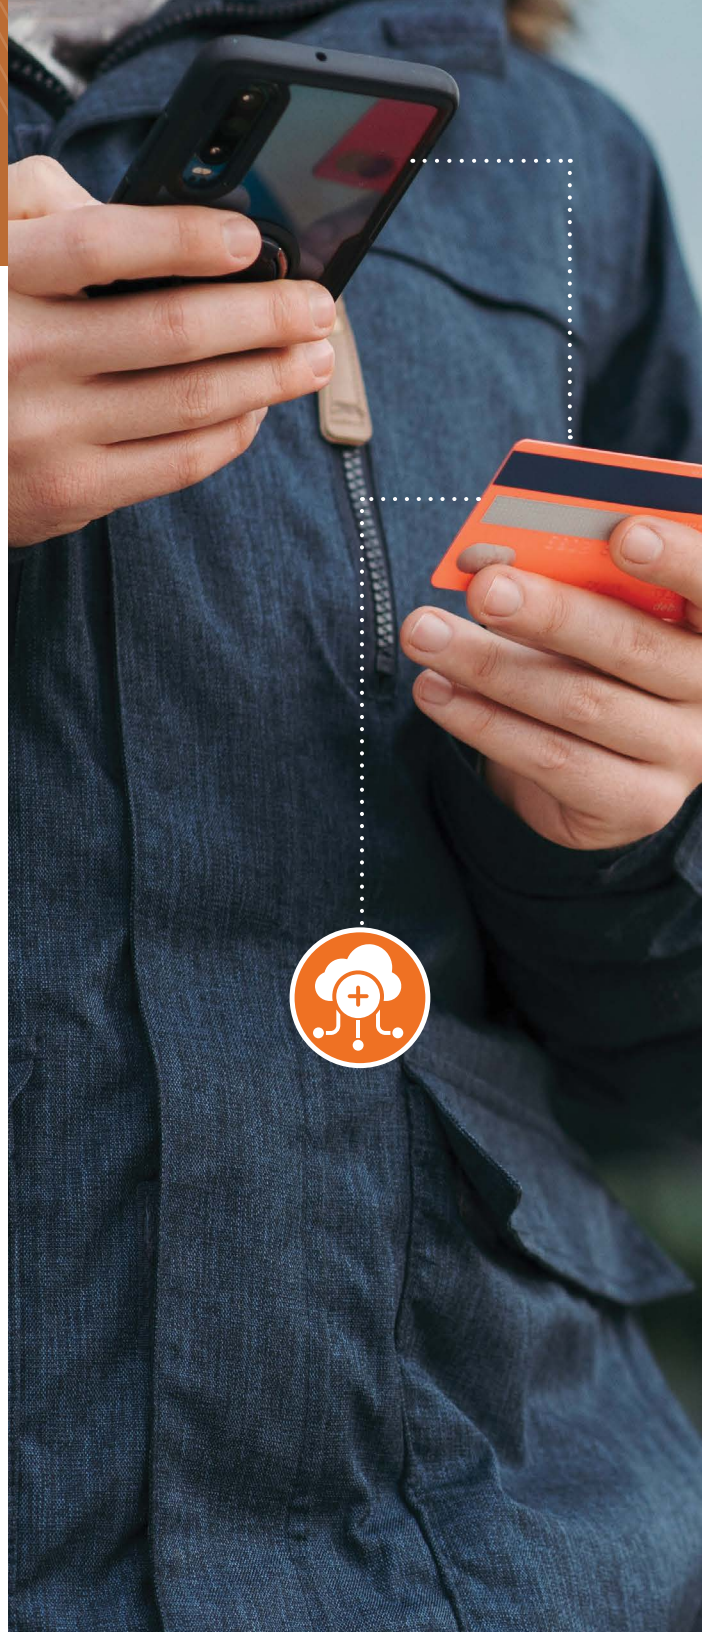

## TownHall247 Point of Sale

The core of everything

- **Over \$275,000,000** in 20 years of municipal revenue collections.
- Complete the average transaction in **under 30 seconds**.
- Support for **every department** from Tax Collector to DPW.
- **Synchronization** with your Assessor's database to verify residency or visitor status.
- Display outstanding taxes to **reduce selling** staff effort.
- Powerful and **customizable** reports - we build them for your needs.
- Integrated secure credit card and eCheck processing for the **easiest reconciliation** in the industry.
- **Collect** property tax payments.
- Use Apple Pay, Google Pay, or any other **NFC payment type**.

## TownHall247 Online Citizen-facing sales

- Allow citizens to look up their property and purchase qualified items from virtually **any internet-enabled device**.
- **Synchronize** with your Assessor's database to easily verify residency. Visitors are denied the opportunity to attempt the purchase of a resident item.
- All online data collection fields and documents required are fully customizable within **TownHall247**.
- Citizens can pay with **credit cards or eCheck**.
- Online submissions reviewable by staff directly within TownHall247. **Notifications alert** when orders are ready to review. 
- **Request** additional documents to complete a transaction, allowing the citizen to append their order rather than re-submit.

## TownHall247 PlateTracker

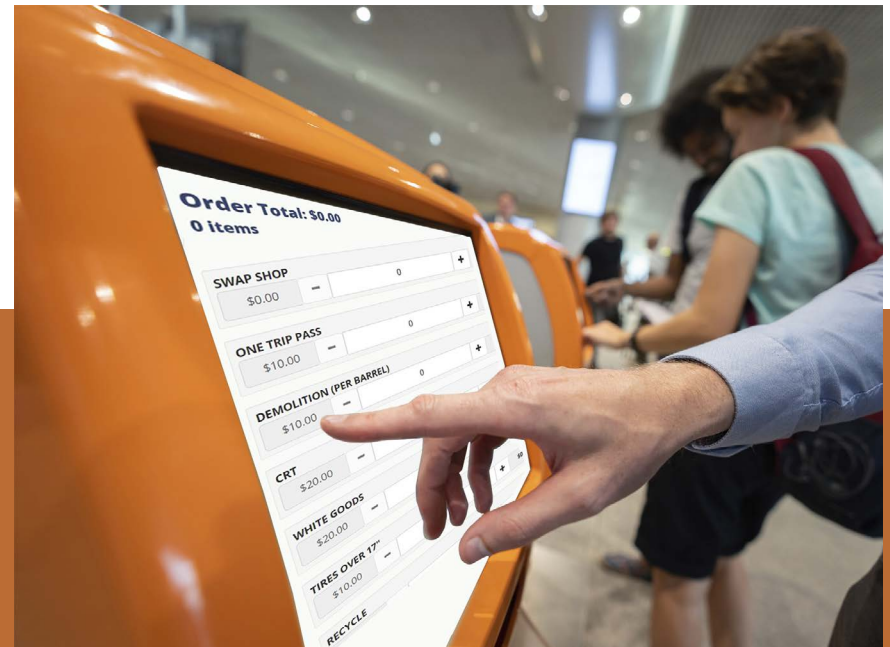

- Automatically **reads all** license plates, including make and model.
- Eliminate **workload and cost** in designing, purchasing, issuing, and visually verifying thousands of physical stickers per year.
- Synchronize in **virtual real time** with **TownHall247** database ensuring new permits are granted access and revoked/expired permits are denied.
- Allows your staff to focus on **customer service** and other tasks.
- Streamline violator management with a hot list to **alert** of specifically noted vehicles. Amber alerts, previous violators, or any specific vehicle of interest are automatically displayed.
- **Parking enforcement** available with vehicle mounted LPR.
- 24/7/365 - **TownHall247** never sleeps or punches out. Monitor your traffic flow hands-free every minute of the year.

## TownHall247

### Kiosk and Mobile Sales

- **Collect** offsite revenue.
- **Easy, fast transactions** using standard credit cards, Apple Pay, Google Pay, and other NFC sales.
- Fully integrated solutions reflect in **real-time** in the **TownHall247** cloud. Monitor your remote sales as they happen from your office or home.
- Use virtually **any internet-connected** smart phone or tablet to process transactions.
- **TownHall247** parking kiosks allow citizens to self-vend and park their vehicle.
